

# Clinical Data Manager

Our corporate activities are growing rapidly and our Contract Research Organization is currently looking for a new employee for the full-time position of Clinical Data Manager in ongoing and future Clinical Trials.

## **Responsibilities:**

Manage all aspects of the clinical trial data management process from study start-up to database lock for SanaClis clinical trials:

- Lead the design and validation of the CRF specifications and edit checks for the electronic data capture system used for each study;
- Coordinate overall data management by serving as primary contact for the sponsor, external data providers, and all project team members;
- Interact with external data providers, and all project team members in the cross functional team;
- Develop DMP;
- Participate in teleconferences and face to face sponsor meetings as the lead representative from Data Management.
- Provide trainings for study team.

## **Education:**

Master degree (life science, computer science, bioinformatics) or certification in a related profession from an appropriately accredited institution (e.g., computer science, medical or laboratory technology).

## **Qualifications:**

- 2+ years of experience in Data Management
- experience with analysis software and different data systems
- Knowledge of EU and USA rules and regulation
- CDISC and SDTM experience
- Knowledge of SQL and/or Java/Python/R/SAS
- Applicant shall demonstrate ability to build and maintain effective relationships with others and establish collaborative partnerships with internal and external stakeholders;
- Be results-oriented; effective ability to set and meet short-term and long-term goals
- Good organizational skills, ability to manage multiple tasks and meticulous attention to detail.
  - Excellent written and verbal communication skills.
  - Excellent written and spoken English.

We look forward to receiving your application. A member of our recruitment team will review your qualifications and if interested, you will be contacted for an interview.

Please submit your application and CV to [igor.uspenskyi@sanaclis.eu](mailto:igor.uspenskyi@sanaclis.eu)
